Subject: CSD Inspection Weather

Hi there.

Temperature on Wednesday will start out in the low 60's and by the time we would be doing any walk-around of the facility, temps will be up in the upper 70's. Winds will be light from the south and no rain during the day. There should be some good rainfall overnight, but ended by Thursday at inspection time. Temps on Thursday will be very similar with winds from the southwest – west.

This is pretty warm for a walk-around. Please dress appropriately (light colors, light fabrics) and bring plenty of water. We typically don't get time to take a lunch break, but if you bring something to eat, you can head back to the van at any time and get some calories.

There is an animal mortality webinar that Cheryl and I will be listening to on Tuesday. It is from 12:30-1:45pm. I'll forward the link in case you want to register and do this webinar. We are still on track to leave at 2pm on Tuesday.

Let me know if you have any questions.
-Joan
